

NEWS FROM THE LIVE WIRES.

ETNA HAS CAUSED \$2,000,000 DAMAGE

Catania, Sicily, Sept. 13.—The eruption of Mt. Etna is assuming the proportions of a real disaster. The lava stream whose path crosses the railway line circling the volcano is approaching the railway stations to the north and especially threatening the depots at Molo and Alcantara, which were abandoned today. Squads of laborers were at work today taking up the railroad tracks and removing all transportable material to places of safety. The entire crest of Mount Etna appears to be in a state of ebullition. An exact count of the number of fissures is impossible because of the smoke which shrouds the whole mountain, but there seemed to be more than thirty openings, all belching smoke and lava. This afternoon it was reported that seventy-nine new fissures had opened since the disturbance began. The river of lava which is moving slowly northward, has increased in volume and extended eight miles from its source. The houses of several peasants have been overwhelmed. The earthquakes continue, terrifying the people for miles about. At Zafferano, on the north coast of Sicily, fifty shocks were recorded during the twenty-four hours. The gravity of the eruption of Mount Etna is indicated by the abandonment of the railway stations at Molo and Alcantara marked the limit of the lava flow in the eruption of 1879. Molo was threatened at that time, but escaped. The eruption means great suffering for the peasantry. The slopes of Etna, with an area of more than 400 square miles, support a population more dense than that of any other portion of Sicily or Italy. There are sixty-five cities and villages in the entire area and the number of inhabitants who obtain an excellent agricultural living from the fertile lava beds total more than 300,000. Catania, Sicily, Sept. 13.—Clouds of smoke from Mount Etna hid the sky and made the atmosphere intolerable today. The volcano continued to throw out lava, cinders and ashes from the craters and a hundred new fissures. The river of lava flowing to the north has separated into four main streams, the largest of which is moving toward Alcantara and is two miles from Francavilla. The railway station at Solicohata is in immediate danger. It is estimated that the present eruption has caused so far a property loss of \$2,000,000.

AT HARVEST TIME

PUT SOME MONEY IN OUR BANK

Copyright 1909, by C. E. Zimmerman Co., No. 36

WHEN the crops are in, and the profits of the farm can be counted in money, the time to start a bank account is ripe; by doing so you may conduct your farm as every good business is conducted.

First National Bank

LOGAN, UTAH.

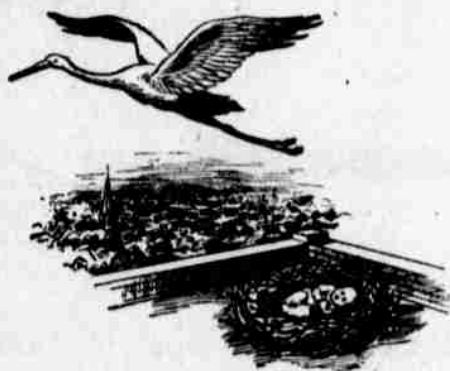

Capital \$100,000.00. Surplus \$19,000.00. Deposits \$400,000.00

Baby Week

Commences

THURSDAY MORNING, SEPT. 21ST

At

Campbell's Smart Shopp

Co-op Drug Co.

Thatcher Clothing Co.

Lafount Hardware Co.

Commencing Thursday morning we will give every baby under five years of age brought into any of the above stores a beautiful SAVINGS BANK WITH A BRIGHT NEW SILVER DOLLAR, the same to be deposited to its credit in the Thatcher Bros. Bank of this city and we will continue to give to its parents and friends who purchase goods from us for cash a DISCOUNT OF 5 PER CENT, which we will add to the \$1.00 savings account, and we will keep it up until the child reaches the age of 15 years.

Any child over 5 years of age can also get a bank and will get the 5 per cent credit on all goods purchased same as those under five, provided its parents or friends start the account with the first dollar. When this money is put in the bank it absolutely belongs to the child in whose name it is deposited. Limited to one child in a family.

Think of it, mothers! It may mean an education for your boy or girl—can you afford to let this opportunity go by?

KILLS HIMSELF WHEN

KIND ACT IS MISUNDERSTOOD

South Manchester, Conn., Sept. 13.—Despondent because he was accused of having eloped with a fourteen-year-old girl, Thomas A. Wright, 30 years old, committed suicide in a hotel here last night. Wright was employed on a farm at Simsbury and the girl was an orphan who had been bound out to his employer. Two days ago Wright hired an automobile and took the girl to the home of his sister in Manchester, alleged that she had been cruelly treated by her employer. Wright was worried by the publicity given his act.

DE GRAW IN FAVOR

OF PARCELS POST

Omaha, Neb., Sept. 12.—An address by Fourth Assistant Postmaster General P. V. DeGraw, in which he strongly favored the parcels post, featured the opening session of the national convention of first class postmasters yesterday.

"Contrary to prevailing belief," declared Mr. DeGraw, "the parcels post will prove a boon to the merchants catering to trade in his own territory, instead of the large mail order houses."

He declared the proposed parcels post law would cut off many mail order houses from their trade, and that it would be to their interests to oppose it strongly.

Mr. DeGraw urged postmasters to assist in educating the people to place return addresses on all mail, thereby relieving the burdens of the dead letter department.

MILLIONAIRE'S WIFE LIVING

WITH PLUMBER'S SON IN FLAT

New York, Sept. 15.—Frederick Noble, twenty-one years old, son of a Brooklyn plumber, whose name has been coupled with that of Mrs. Louise White Suydam ever since she left the summer home of her rich young husband, Walter Lisenard Suydam, Jr., September 5, admitted late tonight for the first time that he eloped with the eccentric young society matron.

Mrs. Suydam and Noble were found in a tiny flat in the Regina apartments, where they have been staying since the elopement. They are known as "Mr. and Mrs. Noble."

Mrs. Suydam, in a kimono, gazed defiantly at the group of newspapermen. She financially is well off. It was learned she drew \$20,000 from the Patchogue bank and from a national bank in New York in which she had an account a few days before she disappeared.

FOLEY'S KIDNEY REMEDY (Liquid)

Is a great medicine of proven value for both acute and chronic kidney and bladder ailments. It is especially recommended to elderly people for its wonderful tonic and reconstructive qualities, and the permanent relief and comfort it gives them. For sale by Co-op Drug Co.

USE WASTE WATERS

IN RICH LANDS

COMPANY FORMING TO HANDLE ENTERPRISE

Gigantic Irrigation Project Set on Foot at Meeting at Commercial Club—Plan Explained at Enthusiastic Meetings.

Salt Lake Telegram.

Within a few days a company will be formed and before November 1 next actual work will commence on the most gigantic reclamation plan ever undertaken in Utah, and one of the largest irrigation plans in the history of the west.

Upon the completion of the plans of the company from 150,000 to 250,000 acres of arid lands in the counties of Weber, Utah, Davis and Salt Lake will be brought under cultivation and that too at a reasonable cost to the owners of the land who want the water. The estimated cost is from \$5,000,000 to \$10,000,000 according to the amount of land to be reclaimed.

The first cost will be between \$75,000 and \$100,000 and for the purpose of caring for this first cost, such as completing surveys and securing full data, a company will be formed within a few days. It will include among its stockholders some of the most prominent business men of the state. The money for the final carrying out of the plan is already assured, and the promoters feel that nothing now stands in the way of the greatest reclamation scheme ever launched in Utah.

The entire matter was carefully discussed late yesterday afternoon at a meeting of nearly fifty prominent business men held at the Commercial club.

Hold 200,000 Acre Feet.

The reservoirs will be built at Deer Creek and close to Rockport. The first will hold 140,000 acre-feet of water, the second 60,000 acre-feet. The term "acre-feet" means an acre of water at a depth of one foot. The Deer Creek reservoir, it is estimated, would be a mile wide and 125 feet deep at its maximum measurements. The proposed canal will commence at a point on the Weber river above Oakley, and cut across ten miles to the Provo river between Heber City and Woodland. From Deer Creek, the canal will be continued down Provo canyon and across the valley to the Jordan, where, by a piece of big engineering, the water is to be siphoned across the river for distribution on the other side of Utah lake and in Cedar valley. The canal will cover fifty or sixty miles, and perhaps more at a later date.

Reservoir sites and flood waters have been filed on as required by law. Up to the present time the company has spent about \$5,000 in preliminary investigations. While the company exists, the organization has not yet been perfected, and the stockholders will choose their own officers as soon as the full list has been made up. A board of fifteen directors will control the company's affairs. The firm is at present known as the Utah Conservation company.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

SHERIFF'S SALE.

In the District Court of the First Judicial District of the State of Utah, in and for the county of Cache.
